Where we call home

We have lived in our home for a little over 2 years and have been working hard to make it the best place for our family.

We live in town but have a large yard of almost 1.5 acres. We have a small garden that we hope to continue to expand and a large playset that is well loved by our kids.

Our home is always full of music! Whether it is instruments, singing or dance parties.

If it can be picnic, then it will be! Either outside or in the living room.

We love adventures and are always looking for new activities as a family!

Thank you for taking the time to learn about us! We would be honored to be considered as a family for your child. We are praying for you and your child on whatever path you choose, God bless you.
